14 Available Languages

Sign Language

Are you ready to start your interactive journey toward American Sign Language (ASL) fluency? Let Jake be your guide as we start off by learning what exactly ASL is comprised of and the differences between Signed Languages. We'll also uncover interesting tidbits of information about Deaf culture as well as fascinating ASL history in the 'Did You Know' section of your course material. Plus we'll get you signing in your 'Practice Time' debut!

Spanish

Let our Spanish enthusiasts walk you through your travel itinerary. We'll cover what time, what day, and ensure our ride to the airport gets us there with time to spare. Get your bags packed, we're due to depart!

Italian

By the time you finish the lesson, you'll also be able to talk about your experience of studying the Italian language with anyone who will listen, and gracefully accept the compliment when someone comments on how well you're doing. On the cultural side of things, we'll discuss the finer points of saying "thank you" and "you're welcome," and finish with what to say in the rare case of an emergency...

Hindu

If you are completely new to Hindi, then I recommend listening to this first lesson a few times to train your ear to Hindi. I would also recommend looking at the Practice tab, where all of the vocabulary from the lesson is listed with matching audio. You can also test your own pronunciation with our fantastic voice comparison software, Rocket Record!

Japanese

Many people tell me that Japanese is not such a difficult language to learn to speak well enough to get by. When it comes to reading and writing, however, it is a totally different story! And they are right!

Arabic

Hello and welcome to our very first introduction to writing in Arabic. Here is where you might gulp. *Gulp!!* Now you may be thinking this is going to be incredibly hard or almost totally impossible! It's just a bunch of squiggles isn't it? I mean everybody says that Arabic is one of the most difficult languages in the world to learn. But you know what? They're all wrong! It's a myth that's about as real as the Loch Ness monster!

French

Using a scientific process called 'chunking,' Rocket French breaks down every day French conversations into small segments so your mind can more easily absorb and remember them. The chunking method means that you'll be able to work on your conversational French and overcome the fear of saying the wrong thing, in the privacy of your own home.

Inglés (English for Spanish Speakers)

Empecemos desde el principio...Aquí comienza tu viaje con Rocket en inglés. Let's start from the beginning...Here begins your journey with Rocket in English

German

German-speaking people just love it when tourists and travelers speak German to them!

***First time users will have to use their library cards to create an account**

- **Rocket Languages is accessible in the library or at home***
- **Create a toolbox to store all your useful tools to help you learn**
- **Learn on your own terms and in your own time**

Learn Anywhere

Install the Rocket Languages iOS and Android apps so you can use your courses wherever you are.

Easy Learning

Each conversation is broken down so the learner can follow along and say the words and phrases aloud as though they were taking part in a real life situation. Lessons become more challenging as you work through the course.

Earn Badges

My Badges is the Rocket Languages points system that empowers you to increase your learning status by completing key elements of the course. That's right, just by using all the different features of the course, you can move from being a Novice all the way through to a Guru and beyond...

Phrase Finder

Sometimes you know what you want to say, but you can't remember the right word or phrase in that language. That's where Phrase Finder comes in.

Just type in the word or phrase you want translated.
